QUESTIONS:

When, at the *earliest*, will the state HSTS rules go into effect?

After our proposed rule change who will be accountable for the sampling of NPDES ATUs?

How much will the SCHD charge to review HSTS & Water Evaluations next year?

What type of pump was used to dose the newly installed mound at the Amish School?

What does an intrinsically safe relay do?

What kind of gun can you use to shoot the station alarm lights with?

What does a lightning arrester do?

How does a transducer work?

Can you use a water meter instead of an event counter?

**\*BONUS\*** What topic would you like to hear about at our next meeting?
